

Meter Change Order Procedure

Document ID: SM-MCO-017

Document Type: Procedure

Department: Field/NOMC

Version: 1.0

Knowledge Base: Smart Meter AI Assistant — Synthetic Business Document

Purpose

MCO manages replacement or change of a smart meter under an approved field process.

Pre-checks

Verify service, existing meter identity, work order, connection information, and authorization.

Old meter

Capture old meter status and required final readings or events before removal.

New meter

Install and commission the new meter, verify communication, and associate it with the correct service.

HES/MDM updates

Update HES and MDM using the approved change workflow and avoid duplicate mappings.

Validation

Validate communication, readings, configuration, and downstream flow after the change.

Operational note

This is synthetic content created for local RAG development, testing, interview demonstration, and GitHub publication. It is not a confidential utility procedure or contractual document.
